PROFESSIONAL SUMMARY

Full Stack Developer skilled in building responsive web applications using Java, Spring Boot, and React. Experienced in designing RESTful APIs, integrating front-end and back-end systems, and working with MySQL and Oracle databases. Comfortable with Git-based team workflows, debugging, and delivering clean, maintainable code. Looking to bring hands-on full-stack experience to a growth-oriented development team.

TECHNICAL SKILLS

- **Languages:** Java
- **Front-End:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap
- **Back-End:** Spring Boot, JPA, Spring Security, Servlets, JDBC, RESTful APIs
- **Database:** MySQL, Oracle
- **Tools:** Git, GitHub, Eclipse, VS Code, Postman, Canva

WORK EXPERIENCE

Full Stack Web Developer | Elevance Skills, Dharmapuri | Jul 2026 – Present

- Built responsive, scalable web applications using **HTML, CSS, Bootstrap, JavaScript (ES6+), React.js, Spring Boot, and MySQL**, delivering a consistent user experience across devices.
- Designed and implemented reusable front-end components and **RESTful APIs** enabling efficient client-server communication.
- Built and maintained back-end services following the **Controller-Service-Repository** architecture, implementing CRUD operations, validation, and database integration.
- Collaborated with cross-functional teams to debug, test, optimize, and deploy applications using **Git/GitHub**, improving application performance, reliability, and maintainability.

Front End Developer Trainee | Six Sigma Solution, Salem | Sep 2025 – Jan 2026

- Developed responsive and user-friendly web applications using **HTML, CSS, JavaScript (ES6+), and React.js**, focusing on clean and intuitive interfaces.
- Built **reusable and maintainable React components**, improving code reusability, consistency, and overall application structure.
- Integrated front-end applications with **REST APIs** to efficiently fetch, process, and display dynamic data in the user interface.
- Debugged, tested, and optimized **front-end features**, collaborating with the development team to improve application performance and reliability.

TRAINING

Java Full Stack Development Training | Besant Technologies | Oct 2025 – Present

- Built a strong foundation in **Core Java** — OOP, Collections, Exception Handling, Multithreading, Lambda Expressions, and Streams.
- Developed responsive, user-friendly web applications using **HTML5, CSS3, Bootstrap, JavaScript (ES6+), and React**, following modern web development practices.
- Worked with **MySQL** for database design and CRUD operations, and gained experience with backend technologies including **JDBC, Servlets, JSP, and Spring Boot**.

PROJECTS

Make My Tour | August 2026 – Present

- Developed travel booking platform using **Next.js, React, Typescript, Spring Boot, and MySQL** with flight and hotel booking features.
- Implemented dynamic pricing based on demand and peak travel periods, with automatic price adjustments.
- Added price history and price freeze features to help users track price changes and lock prices for a limited time.

Technologies: React, Next.js, Typescript, Spring Boot and MySQL.

DM Health and Wealth | Sep 2025 – Jan 2026

- Developed a responsive health information website using **HTML, CSS, JavaScript, and React** with a clean user interface.
- Created diet plans, health tips, and wellness information pages for easy access to health-related content.
- Ensured a user-friendly and responsive design that works smoothly across different screen sizes and web browsers.

Technologies: HTML, CSS, JavaScript and React.

Elite Ice Creams | May 2026 – Jul 2026

- Developed a responsive online food-ordering website using **React and Bootstrap**, with a clean and user-friendly interface.
- Implemented food listing, shopping cart, quantity updates, and order summary features for efficient order management.
- Designed a responsive and simple UI providing a smooth food browsing and ordering experience across devices.

Technologies: HTML, CSS, Bootstrap, JavaScript and React.
